

# 14-SLOT RACKMOUNT CHASSIS

## Part Number

NVL-MC-RC14S

## Dimension (H x W x D)mm

90 x 428 x 230

## DESCRIPTION

The 14-Slot Rackmount Chassis is specially designed for accommodating chassis-based Media Converters. It is a standard 19-inch 2U height rackmount chassis which can be suitably mounted in the standard 19-inch rack. The chassis lets you install max 14 media converters in an equipment rack together with the other network devices. This provides space saving. The chassis comes with AC to DC power supply. As an optional, redundant power supply is available.

\*Media Converter sold separately

## FEATURES

- Fits up to 14 media converters
- Standard 19-inch rack-mountable, 2U height
- Non-stop operation & minimal downtime
- Allows hot-swapping of media converters
- Hot swappable redundant power supplies
